Try some of these tips. It's been a hot summer, and it seems like everyone's lost their password, either due to forgetting it or because it's become impossible to remember. A recent Sydney Morning Herald story features the problem that can set in when you're in a rush to get on the subway, eating out in a restaurant or even asleep and trying to remember your password. Solution? Generate them for you! Generate a random and unique password To generate a random password for your account, simply open the website in your web browser, enter it in a blank password box and click on 'Generate'. You can choose the number of characters the password will be - 3 or 6 - and be sure to re-enter it every time you try to log in. If you're locked out of your account, simply choose the options 'forgotten password' and 'gener
